

ANEMBE E-POSTERS IN CORDOBA!

To make the XXVI CONGRESS in Cordoba more innovative, didactic and environmentally friendly, ANEMBE is pleased to announce the launch of a new e-poster system.

All posters will be displayed electronically on touch screens on site and will be available online for months after the end of the Congress.

Other features: audio narration, online questions to the speaker and chat with the audience, emailing of the poster file to a colleague, poster rating and much more!

Authors will be asked to give a brief presentation of their poster during the poster session and we encourage everyone to support them and ask questions about their work.

ANEMBE sincerely hopes that our members and conference attendees will appreciate this innovative project.

For poster authors: It is mandatory to submit your poster file - there will be no paper posters. Once your abstract is approved, you will receive instructions on how to prepare your electronic poster.
